What brought the ape out of the trees and so the man out of the ape was a taste for blood—this is how the story went when a few fossils found in Africa in the 1920s seemed to point to hunting as the first human activity among our simian forebears. The force behind our upright posture skill with tools, domestic arrangements, and warlike ways? Why on such slim evidence did the theory take hold? In this engrossing book, Matt Cartmill searches out the origins and the strange allure of the myth of man the hunter, an exhilarating foray into cultural history, a view to a death in the morning shows us how hunting has figured in the western imagination from the myth of Artemis to the tale of Bambi and how its evolving image has reflected our own view of ourselves. A leading biological anthropologist, Cartmill brings remarkable wit and wisdom to his story, beginning with the killer ape theory in its post-World War II version. He takes us back through literature and history to other versions of the hunting hypothesis. Earlier accounts of man the hunter drafted in the Renaissance reveal a growing uneasiness with humanity’s supposed dominion over nature by delving further into the history of hunting from its promotion as a maker of men and builder of character to its image as an aristocratic pastime. Charged with ritual and eroticism, Cartmill shows how the hunter has always stood between the human domain and the wild, his status changing with cultural conceptions of that boundary.

Michael grew up under the crushing hand of an abusive alcoholic father as an altar boy. He suffered mental and emotional abuse at the hands of the clergy. Soon Michael turned his back on the church and God for over 20 years. Unfortunately, God’s presence took a back seat to his anger, resentment, and disappointment. It was during this period that he indulged in many self-destructive behaviors but he never forgot the God of his youth and a relationship that nourished and protected him when he was very young. Twenty years go by and Michael is married and fully invested in his chosen profession. Yet still angry at God it was in the rooms of Al Anon where Michael rediscovered his faith in a God that cares and began the challenging journey back to the God of his youth but God wasn’t through with Michael in 1985. Having a profound spiritual experience, he re-dedicated his life to the Lord accepting God’s forgiveness, mercy, and grace for his past indiscretions. The Scriptures became alive to him. He devoured the scriptures at every opportunity. Since then, he has been in leadership in various churches but God had more blessings for Michael. He hit another bottom when his attorney job ended shortly after that he attended Sierra Tucson for treatment of his codependency issues and other unresolved issues. This was another turning point in his life. Michael uses his
experience as a lawyer and Christian life coach to be of greater service to others since 1998. Michael runs the Serenity Shack, a sober living home for men. Michael lives in Long Beach, CA, taking his Australian Shepherd, Oreo, for her run. The favorite part of his and her day is being contacted at hisbagofgold@juno.com.

1 New York Times bestseller and Amazon Best Book of 2020. The thrilling and addictive prequel to the Pillars of the Earth set in England at the dawn of a new era: the Middle Ages. Just as transporting as the Pillars of the Earth, a most welcome addition to the Kingsbridge series. The Washington Post noted that it is 997 CE, the end of the Dark Ages. England is facing attacks from the Welsh in the west and the Vikings in the east. Those in power bend justice according to their will regardless of ordinary people and often in conflict with the king. Without a clear rule of law, chaos reigns in these turbulent times. Three characters find their lives intertwined: a young boatbuilder's life is turned upside down when his home is raided by Vikings, forcing him and his family to move and start their lives anew in a small hamlet where he does not fit in. A Norman noblewoman marries for love, following her husband across the sea to a new land where customs of her husband's homeland are shockingly different and it soon becomes clear to her that a single misstep could be catastrophic. A monk dreams of transforming his humble abbey into a center of learning that will be admired throughout Europe and each in turn comes into dangerous conflict with a clever and ruthless bishop who will do anything to increase his wealth and power. Thirty years ago, Ken Follett published his most popular novel, the Pillars of the Earth. Now, Follett's masterful new prequel, The Evening and the Morning takes us on an epic journey into a historical past rich with ambition and rivalry, death and birth, love and hate that will end where the Pillars of the Earth begins.
